BEER

Beer and Whisky go great together. An American creation, a *Boilermaker* consists of a glass of beer enjoyed with a shot of whisky. Traditionally, the liquor is consumed and is then "chased" by the beer, which is sipped. We have some recommended pairings listed below.

WHISKY

Whisky (or whiskey) is produced in various guises.
We like to refer it as Magic.

To make a long explanation short, whiskey (with an 'e') refers to grain spirits distilled in Ireland and the United States. Whisky (with no 'e') refers to grain spirits everywhere else (Scottish, Australian, Canadian, Japanese etc).

The process of distilling fermented grain mash and aging it in oak barrels to make Whisky has now spread the world and has resulted in a remarkable range of styles, including Single Malt Whisky, Blended Malt Whisky, Grain Whisky, Rye Whiskey and Blended Whisky. Our extensive range features many expressions of these, and our team are here to help you through your journey of Whisky discovery.

TEQUILA & MEZCAL

Tequila is produced from blue agave plants in Mexico. It is distilled and sometimes aged in wooden barrels before being bottled.

Mezcal is Tequila's smoky cousin made from various agave species.

These luxuriously, and usually golden but sometime silver elixirs are now loved and adored the world over.

We know that bad Tequila reminds many of crazy parties in our ignorant youth. But it is so much more. Whether you want to shoot it, or sip it, we'll help you select the right nectar to be enjoyed.
